

Spiders of Bendigo and Victoria's Box Ironbark Country

Important information

Errata and updates

To update your copy, please write the following changes into your book:

Inside front cover:

Drawing 2 is of *Lehtinelagia pulleinei* (Rainbow 1915)

swap labels *femur* and *tibia*

patella refers to the segment of the leg between the femur and the tibia

Page 4:

1 January should be 30 January

Page 11:

Paragraph 3

Change *Eriophora biapicata* to *Hortophora biapicata*.

Next line: change Photos 20-22 to photos 21-22)

Paragraph 4

Change *Eriophora pustulosa* to *Socca pustulosa*

Paragraph 5

Change *Eriophora heroine* (L. Koch 1871) to *Backobourkia brounii* (Urquhart 1885)

Page 12:

Paragraph 1

Change *Araneus ?hamiltoni* (Rainbow 1993) Hamilton's orb-weaver to *Salsa fuliginata* ((L. Koch 1872) Sooted Orb-weaver

Paragraph 2:

Change *Araneus eburnus* to *Plebs bradleyi* and 1866 to 1887

Page 18

Photo 20 is of *Hortophora tatianae*

Photos 21 and 22 are of *Hortophora biapicata*

Photo 23 is of *Socca pustulosa*

Photo 24 is of *Backobourkia brounii*

Page 19:

Photos 24 and 26 are of *Salsa fuliginata*

Photo 27 is *Plebs bradleyi* according to Ron Atkinson. *Plebs eburnus* also occurs in box-ironbark forests in Victoria. According to Ron, in *Plebs eburnus* the abdominal colour

scheme is quite variable, sometimes being a uniform green or yellow and sometimes a patterned red and white.

Page 27

Photo 62 is now called *Crypachaea veruculata*

Photos 63 and 64 are now called *Parasteatoda tepidariorum*

Page 28:

Photos 65 and 66 are of *Ambicodamus crinitus*

Photo 67 is *Ambicodamus* sp

Page 29

Photos 73 and 74 are of *Australomisidia pilula*.

Photos 69-72 are also *Australomisidia*, possibly also *Australomisidia pilula*

Page 30

Photo 75 is also *Australomisidia pilula*

Photo 76 is *Lehtinelagia evanida*

Photos 78 and 79 are *Runcinia acuminata*

Page 31

Photo 84 is now *Isala cambridgei*

Page 37

Photo 110 and 111 Change *Hemicloea major* to *Morebilus plagusius*

Photo 112 Change *Hemicloea tenera* to *Rebilus grayi* and delicate pancake spider to scorpion spider

Page 39

Photo 117 and 118 Change *Uliodon* to *Mituliodon*

Photo 119 and 120 Change *Supunna picta* to *Nyssus coloripes*

Page 40:

Photo 122 is of *Tuxoctenus gloverae*

Photo 123 is of *Artoria howquaensis*

Page 41:

Photos 125 and 126 are of *Allocosa palabunda*

Photos 127 and 128 are of *Venatrix speciosa*

Page 42:

Photos 129-131 are now *Tasmanicosa godeffroyi*

Photo 132 is *Artoriopsis expolita*

Photo 133: *Artoria* sp is now *Artoria victoriensis*

Page 44:

Photo 142: Change "*Breda*" *jovialis* to *Ocrisiona jovialia*

Page 45

Photo 144 and 145 are of *Maratus pavonis* (Dunn 1947), Harp Peacock Jumping Spider. (The male was identified by Julianne Waldo of the WA Museum)

Photos 146 and 147 are of *Maratus vespertilio* Blue-flap Peacock Jumping Spider.

All the *Maratus* spiders are peacock jumping spiders, not glider jumping spiders. The males have flaps which they extend then raise the abdomen to display to females like a peacock. See

Page 46

Photo 148: Change Banded Glider Jumping Spider to Banded Peacock Jumping Spider

Page 48:

Change *Zillimata* sp to *Zillimata scintillans*

Page 49:

Paragraph 3 *Achaearanea veruculata* to *Cryptachaea veruculata*

Paragraph 4: Change *Achaearanea tepidariorum* to *Parasteatoda tepidariorum*

Paragraph 5: Change *Durodamus* sp to *Ambicodamus crinitus* (L. Koch 1872)

Page 50:

Paragraph 1: Change *Diasterea lactea* (L. Koch 1876) to *Zygometis xanthogaster* (L. Koch 1875). According to Pekka Lehtinen, this species is widespread, also occurring in Asia.

Paragraph 2: Change *Diaea inornata* (L. Koch 1876) to *Australomisidia ergandros* (Evans 1995)

Paragraph 3: Also *Australomisidia* possibly also *A. pilula*

Paragraph 4: Change *Diaea* to *Australomisidia*

Paragraph 5: Change *Diaea* to *Lehtinelagia*

Paragraph 7: Change *Runcinia elongata* (L. Koch 1974) to *Runcinia acuminata* (Thorell 1881)

Page 51:

Paragraph 4: Change *Stephanopus* to *Isala*

Page 55:

Paragraph 1: Change pancake spiders to scorpion spiders

Paragraph 2: Change *Hemicloea major* (L. Koch 1875) to *Morebilus plagusius* (Walchenaer 1837)

Paragraph 3: Change *Hemicloea nr tenera* L. Koch 1876 Delicate Pancake Spider to *Rebilus grayi* Platnick 2002 Scorpion Spider

Page 56:

Paragraph 1: Change *Ulidon* to *Mitulidon*

Paragraph 2: Change *Supunna picta* (L. Koch 1873) to *Nyssus coloripes* Walckenaer 1805

Paragraph 3: Change *Supunna* to *Nyssus*

Paragraph 8: change *Zoridae* sp to *Tuxoctenus gloverae* Raven 2008

Page 57:

Paragraph 2: Change *Trabaeosa* sp to *Artoria howquaensis* Framenau 2002

Paragraph 4: Change *Lycosa palabunda* to *Allocosa palabunda* (L Koch 1877)

Paragraph 5: Change *Lycosa speciosa* to *Venatrix speciosa* (L Koch 1877)

Paragraph 6: Change *Lycosa godeffroyi* to *Tasmanicosa goddeffroyi*

Paragraph 7: Change *Trochosa expolita* to *Artoriopsis expolita*

Paragraph 8: Change *Artoria* sp to *Artoria victoriensis* Framenau Gotch Austin 2006

Page 59:

Paragraph 1: Change "*Breda jovialis* L.Koch 1879 to *Ocrisiona jovialis* (L. Koch 1879)

Paragraph 3: Change *Maratus* sp, Harp Glider Jumping Spider to *Maratus pavonis* (Dunn 1947), Harp Peacock Jumping Spider.

Paragraph 4: Change *Maratus* sp, Blue-winged jumping spider to *Maratus vespertilio* (Simon 1901) Blue-flap Peacock Jumping Spider.

Paragraph 5: Change Banded Glider Jumping Spider to Banded Peacock Jumping Spider

Page 60:

Paragraph 6: Change *Zillimata* sp to *Zillimata scintillans* (O. Pickard-Cambridge 1869)

Back Cover:

Change *Diasterea lactea* to *Zygometis xanthogaster*
